

PERFORMANCE THROUGH INNOVATION

Drive Chain Series

GT4 Winner

- Unique Lube Groove Bush
- Longer Wear Life - Lower CO₂ Emission
- High Transmission Capacity
- Easy Disassembly
- Accuracy of Chain Length Tolerance

Lube Free Series

5th Generation LAMBDA Chain

- Absolutely no Lubrication Required
- Longer Wear Life - Lower CO₂ Emission
- Clean Handling & Running
- Reduced Maintenance after Installation
- ANSI LAMBDA KF Series now available (temperatures up to 230°C, food grade lubrication)

Corrosion Resistant Series

Engineering Plastic Chain

- Lube Free Operation
- Cleaner & Quieter Operation
- Easy Maintenance
- Alternative to Stainless Steel Chain

Corrosion Protected Series

N.E.P. Chain

- Innovative Surface Treatment
- Superior Corrosion Resistance
- Environmentally Friendly

Mechanical Components

Cam Clutches (Freewheel)

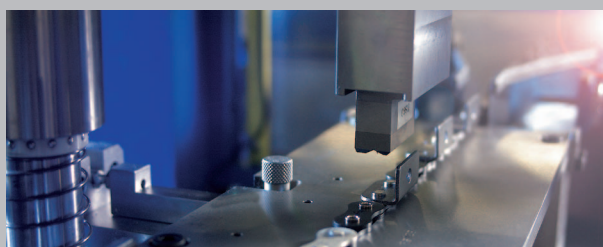

- Full European Range
- For Indexing, Backstopping & Over-running Applications
- From as low as 6 Nm up to 686.000 Nm Torque Capacity
- Available from Stock

Industry Specific

TSUBAKI's product range and service capabilities are amongst the best in the business, from standard attachments through to specific industry applications. For example: **Gripper chain** - for form, fill & vacuum seal wrapping industry.

Specialist attachments and specific matched length tolerance chains are available to meet your production schedules.

LEADING PRODUCTS AND EXCELLENT SERVICE

At TSUBAKI we know that customers want the best and we are aware that every one of our customers has unique requirements. Therefore we take pride in our ability to deliver an extensive product line-up that satisfies these high expectations. Innovative products that contribute to improved production efficiency, reduced downtime and improved maintenance.

TSUBAKI, as the leading global manufacturer of power transmission products, is committed to help improve the environment by eliminating the use of hazardous materials such as Chromium through to reducing the impact on our world as a result of the effects of CO₂ emissions. With an eye on these future trends, we are committed to take on the challenge of technical innovation.

KABELSCHLEPP

A member of the TSUBAKI GROUP

Founded in 1954, KABELSCHLEPP today is a global player in the field of cable and hose carrier systems. Cable carrier systems can be found in use worldwide, ranging from standard applications like machine tools to more complex applications such as industrial robots and even aerospace.
